CAREERS IN SKILLED TRADES PRESENTATIONS FOR STUDENTS

Burnaby – Skills Canada BC, in partnership with the Industry Training Authority, is excited to introduce our In-School Presentations to Grade 9 and 10 students from across the Province of BC.

We use innovative and interactive ways to get students thinking about careers in skilled trades.

“The In-School Presentations are developed to provide young people with a greater understanding of training programs, apprenticeships and opportunities for growth in these respective fields. The presentations are designed to engage students with dynamic facilitation and group discussions,” said Vincent Chou, Communication Coordinator for Skills Canada BC.

The presentation breaks down some of the myths about working in trades, highlights success stories and provides students with some of the information they will need to find a career that aligns with their passion.

Skills Canada BC is a non-profit organization and registered charity composed of volunteers representing - industry, labour, education and government dedicated to promoting and enhancing the perceived value of professional technical and trade skills among British Columbia’s youth.
